

## VEGETATION CONTROL

# KEEP YOUR PROPERTY CLEAR OF WEEDS AND BRUSH

Uncontrolled vegetation on bare land, graded lots and commercial properties is an eyesore, as well as a potential breeding ground for pests. Proper weed control can help protect your property value, preserve your relationship with the community and shield you from potential legal liability.

Contact us for complete vegetation control, including:

- Weed prevention in bare dirt or gravel areas, on footpaths, in parking lots and throughout planted landscapes
- Pre-pavement applications to prevent weed breakthrough in asphalt paving
- Selective grassy weed control in established plantings
- Weed control in bare areas and in cracks and crevices in load-bearing surfaces
- Long-term weed suppression in industrial areas.
- Combined pre-emergence and post-emergence applications
- Pre-emergence applications to established plantings to prevent weed germination

---

No job is too large or too small. Whether you need several acres treated or a single weed-choked pathway groomed, our trained landscape professionals provide guaranteed results that meet your needs and budget.
